

PRESS & INVESTOR SNAPSHOT

Whiskey Jack — An American Spirits Brand in Deliberate Development

Whiskey Jack is an American spirits brand in development, founded in Texas and built with a long-term vision for quality, authenticity, and cultural relevance. The brand explores what American whiskey and rum can become when tradition is respected—but not copied.

Development is currently focused on brand identity, visual language, naming architecture, and early market validation through non-alcoholic merchandise. No spirits are currently produced, sold, or offered.

The founder is a U.S. Marine Veteran pursuing formal spirits education and certification, with plans to partner with established distilleries when the brand is operationally and regulatorily ready.

Whiskey Jack is not chasing speed. It is building alignment.

Status Concept & Brand Development

Category American Whiskey & Rum (future)

Location Texas, United States

Availability Not yet in production

Inquiries Press, strategic partners, and aligned investors welcome

WHEN WE'RE READY

What Comes Next — In Order, Not in Haste

Whiskey Jack will move forward only when each stage is earned. While timelines are intentionally undefined, the path forward is clear.

When we're ready, you'll see:

- **Distillery Partnerships** – Collaboration with established U.S. distilleries aligned with our standards, values, and style direction.
- **Small-Batch Development** – Carefully scoped production runs focused on balance, structure, and identity—not volume.
- **Regulatory Readiness** – TTB approvals, COLA compliance, and state licensing completed before any release.
- **Community First Access** – Early supporters and contributors recognized before broader availability.
- **A Measured Launch** – No hype cycles. No rushed releases. Just a product that earns its place.

Until then, the work continues quietly—where it matters most. Whiskey Jack is a brand in development—built deliberately, not rushed.
